**Measuring equity and inclusion: Assessment and accountability for advancement**  
Saturday, March 3, 2018; 8:30am-12:30pm at The Bay School of SF in San Francisco, CA

The work of equity and inclusion is never done—but that doesn't mean we can't or shouldn't hold ourselves accountable for advancing our practices, impacts and outcomes. This working conversation is an opportunity for educators to learn about assessment tools and processes—including institutional dashboards, program inventories and community climate assessments—that schools can create and implement, in order to understand how you're doing in enacting your core values. Participants will explore the purpose, opportunities and responsibilities of assessing equity and inclusion; identify effective frameworks, practices and processes for assessment; consider existing tools and models (and how to discern relevance, fit, useful takeaways and applications); and engage in dialogue with peers from other schools doing or beginning this work.

This workshop is for preK-adulthood educators, including administrators, faculty, staff, trustees and parent/guardian leaders, who are committed to and/or responsible for ensuring and advancing equity and inclusion in their schools.

Takeaways:

- Clarity about equity and inclusion, and what quantitative and qualitative assessment of E&I comprises
- Frameworks, strategies, tools and language for advancing equity and inclusion assessment
- Models, effective practices and resources from other schools and organizations

#### About Blink:

Alison Park is the founder of Blink Consulting, an educational consultancy that is critically rethinking diversity. Since 2005, Blink has collaborated with over 90 schools, as well as private, government and community-based organizations to help create communities where all children, youth and adults can thrive. In addition to her work with clients, Alison has facilitated at numerous conferences, partnered with other organizations, and served on Park Day School's Board of Trustees. Alison currently serves on the Advisory Board of the Mosaic Project and the SMART program's Board of Directors. Before Blink, Alison taught for thirteen years in the public, non-profit and private sectors.

Blink workshops and conferences are designed to critically and compassionately rethink diversity. Each professional growth opportunity is designed as a collaborative, professional, practice-focused occasion for educators who are striving to engage the diversities of their schools to create more inclusive communities where each and every person can thrive.
